

Curriculum Vitae

Michael Donald Bailey
School of Cybersecurity and Privacy (SCP)
Georgia Institute of Technology
756 West Peachtree Street NW
Atlanta, GA 30308-4016
E-mail: mbailey@gatech.edu
WWW: <http://mbailey.cc.gatech.edu/>

Professional Preparation

2006 Ph.D. in Computer Science, University of Michigan, Ann Arbor, MI.
1995 M.S. in Computer Science, DePaul University, Chicago, IL.
1992 B.S. in Computer Science, University of Illinois, Urbana, IL.

Appointments

GEORGIA INSTITUTE OF TECHNOLOGY, ATLANTA, GEORGIA

Professor (2022 - Present)
(Inaugural) School Chair (2022 - Present)

I currently serve as a Professor and School Chair in the School of Cybersecurity and Privacy at the Georgia Institute of Technology. The School of Cybersecurity and Privacy's (SCP) mission is to create security for everyone and everything, every day. SCP believes rigorous research can be inspired by everyday problems, societal challenges require multidisciplinary solutions, developing tomorrow's leaders requires revolutionizing security education, and together we can create a secure future. The 23 tenure-track faculty draw from diverse disciplines including computing, engineering, public policy, international affairs, business, and law. In 2023, SCP's faculty mentored 60+ Ph.D. students as well as taught 1,100+ students in the cybersecurity masters degree program. In the same year, they published over 150 peer-reviewed works and received more than 20 new grants covering topics ranging from trustworthy AI to combating Cyberwar and Terrorism. In 2025, SCP was ranked #2 in Cybersecurity by US News and World Reports.

As the inaugural chair, I addressed (with faculty, staff, and students) a far-reaching set of strategic and execution challenges around the creation of a new business unit within the university. While "startup" challenges remain part of the role, increasingly the role is shifting from "innovator or growth CEO" to "maintainer or operator." As such I have moved from a 100% administration role to a traditional 50% administration, 50% research, teaching, and service. Daily administrative tasks include: Department, college, and university governance, instructional leadership, faculty affairs, student affairs, communication, and budgeting.

UNIVERSITY OF ILLINOIS, URBANA-CHAMPAIGN, ILLINOIS

Professor (2020 - 2022)
Associate Professor (2014 - 2020)

My interests lie in exploring the security, performance, and availability properties of computing systems. My work seeks to both inform the development of these systems to address immediate, important societal problems as well as to fundamentally enhance our understanding of the sciences underlying the computing subfields of networks and security and privacy. While my research philosophy values new knowledge based

on reason and I routinely make use of deductive inference, my work is best described as empirical, and hence, inductive in nature.

As a full professor I provided leadership across teaching, research, and service roles at the university. Commensurate with the senior role, I demonstrated a wide level of responsibility in service including college and university level activities as well as service in the international community. I contributed to the development of curriculum and successfully mentored Ph.D. and other students. I created a substantial and influential body of research as well as attracted significant external funding for my work.

UNIVERSITY OF MICHIGAN, ANN ARBOR, MICHIGAN

Research Associate Professor (2012 - 2014)

Assistant Research Scientist (2007 - 2012)

Adjunct Lecturer (Winter 2008, Winter 2010, Fall 2012)

Research Project Manager (2004 - 2007)

My responsibilities as research faculty include: selecting problems and conducting research, writing and presenting research results, advising students, teaching, grant writing and administration, and performing both external and internal service. Note, that while I served in the role as the primary thesis advisor for doctoral students, by university policy, research professors may only serve as sole advisor by special permission. As such, these students appear as co-advised below.

ARBOR NETWORKS, INC., ANN ARBOR, MICHIGAN

Director of Engineering (2001 - 2004)

Arbor Networks builds innovative availability solutions for companies whose success depends on highly available and fully optimized networks. Arbor Networks flagship product, Peakflow SP, is a distributed, non-intrusive, scalable availability solution that improves network uptime, performance, and security for Internet Service Providers, enterprises, and hosting providers. The impact of this product is profound—as of Q3 2013, these tools monitor roughly 70 terabits per second (Tbps) of global Internet traffic, an estimated one third of the total, average, global Internet bandwidth.

As Director of Engineering I coordinated the actions of engineering managers, architects, engineers, and release engineering for Arbor's products. I oversaw design, implementation, documentation, and QA activities. I was responsible for evaluations, hiring, and budget activities (\$3M+) for a department of 30 people. As a director, routinely interfaced with product marketing, sales, HR, legal, and finance as well as performed deployment, operations, and sales engineering tasks for marquee customers. Major milestones included developing software engineering processes, building the QA team, growing the engineering team from 10-30, and the delivery (on-time) of three new software products and associated follow on releases.

DRAGONFLY WIRELESS, ANN ARBOR, MICHIGAN

Founder (2000 - 2001)

DragonFly Wireless Inc.'s vision was to provide a next generation mobile data optimization solution to support instantaneous access to all file types from any device over any network. The company employed mobile distributed file system techniques to enable enterprises to wirelessly transmit data to professionals and customers faster and more efficiently than existing alternatives.

The company employed 18 people in two offices in the United States. Personal responsibilities included; chief architect of the Dragonfly's product, management of the implementation team, raising institutional and private investment, coordinating implementation and deployment for BETA customers, and supporting sales in their efforts to market the Dragonfly product.

SIGMA6 DIGITAL ARTIST CONSORTIUM, DETROIT, MICHIGAN

Consultant (1997 - 2000)

As a consultant for a web systems organization, worked as the technical lead on numerous projects including, but not limited to: a business training web site for Ford (JavaScript and ASP), a “build your own website” CD for Buick (visual basic), a back end logo generation Servlet for GMAC (Java), and a web based document management system (cold fusion).

UNIVERSITY OF MICHIGAN, ANN ARBOR, MICHIGAN

Graduate Student Research Assistant (1995 - 2000, 2004)

My thesis (completed in 2006), entitled “A Scalable Hybrid Architecture for Measuring, Tracking, and Characterizing Internet Threat Dynamics”, proposed and evaluated an architecture consisting of lightweight and heavyweight honeypots for measuring Internet threats such as denial of service attacks, worms, and botnets.

ANDERSEN CONSULTING, CHICAGO, ILLINOIS

Intern (1995)

A primary programmer in the next generation of CSTaR’s (Center for Strategic Technology Research) Internet Interactive World project that sought to provide a unique commercial environment on the Internet using Sun’s new programming language, Java. Completed a working prototype by end of Internship.

DEPAUL UNIVERSITY, CHICAGO, ILLINOIS

Instructor (1994 - 1995)

Worked as an instructor for DePaul University teaching undergraduate programming classes. Responsibilities included preparing and delivering lectures, coordinating GSI activities, developing and administering exams, and assigning student grades.

AMOCO CORPORATION, CHICAGO, ILLINOIS

Programmer/Analyst (1993 - 1994)

Programmer (1992 - 1993)

Completed individual and team projects to meet client specifications for a variety of new software systems. Each project consisted of defining client needs, producing program specifications, developing test plans, coding, testing, and documentation.

Synergistic Activities

As an associate professor I perform a variety of activities focused on improving the security and availability of complex distributed systems. In addition to traditional research products (i.e., publications), my research attempts to provide tools and data that make a substantive impact on the operations of today’s networks. For example:

- As part of the DHS PREDICT project, our Virtual Center for Network and Security Data provides network and security researchers with valuable datasets for evaluation of new techniques and methods. We have made over 37TB of netflow data and 87 TB network telescope data available in anonymized form to security researchers.
- The Internet Motion Sensor (IMS) project was a network of distributed sensors that provides the capability to quickly and accurately characterize emerging threats like bots and worms. At its peak IMS consisted of more than 60 distinct monitored blocks at over 25 organizations across the Internet and was used actively used by Internet Service Providers as an early warning system for brewing security attacks.

- In our project entitled Detecting and Dismantling Botnet Command and Control Infrastructure using Behavioral Profilers and Bot Informants we are developing and deploying a system to detect and dismantle botnets. This software is deployed at the United States Computer Emergency Response Team (US-CERT) where this software helps protect 14 government agencies and networks. Furthermore, we are currently engaged in a technology transfer of this work to state and local governments through a pilot at the city of Seattle, WA.
- I am member of the “Menlo Report” working group. The “Menlo Report” is a community document, inspired by the Belmont Report, that seeks to provide a framework for ethical guidelines for computer and information security research. As a member of the Menlo working group I have been involved in a wide range of activities on this project including: writing, facilitating, marketing, and evaluating the report. Further, along with my colleagues, I have begun building tools, such as the ethical impact assessment (EIA), that can be used to help computer science researchers evaluate the ethical impact of their work.

Funding Activities

PI, co-PI, or Key personnel for numerous **awarded** grants:

- “Planning IUCRC at University of Illinois at Urbana-Champaign: Center for Infrastructure Trustworthiness in Energy Systems (CITES)” - National Science Foundation, IIP 1822205, 9/1/2018 to 8/31/2019, \$15,000, David Nicol (PI), Michael Bailey (co-PI), University of Illinois
- “Trustworthy and Secure Cyber Plexus” - National Research Foundation (Singapore), 9/15/2017 to 9/14/2022, \$15,000,000 (Singapore), David Nicol (PI), Michael Bailey (Key Personel), University of Illinois
- “Pre-Positioned Cyber Threats”- Department of Homeland Security, HSHQDC-16-A-B0010, 8/11/2017 to 2/10/2020, \$640,000, Michael Bailey (PI), University of Illinois (\$240,000); Angelos Stravrou (co-PI), Kryptowire, LLC.
- “Information Marketplace for Policy and Analysis of Cyber-risk and Trust (IMPACT) Ethics Decisions Support Research” - Department of Homeland Security, HSHQDC-16-A-B0010, 02/16/2017 to 02/15/2018, \$141,955, Michael Bailey (PI), University of Illinois (\$141,955)
- “Google Security Privacy and Anti-abuse applied research reward” - Google, Inc., Gift, 08/25/2016, \$100,000, Michael Bailey (PI), University of Illinois (\$100,000)
- “Understanding and Improving the Cybersecurity Posture for Manufacturers” - Department of Homeland Security, 2015-ST-061-CIRC01-02 (Modification 1), Michael Bailey (PI), David M. Nicol (co-PI), Randall Sandone (co-PI), 07/28/2016 to 07/27/2018, \$200,000, University of Illinois (\$200,000)
- “Cyber Resilient Energy Delivery Consortium (CREDC)” - Department of Energy, DE-OE0000780, 10/01/2015 to 9/30/2020, \$28,099,258, University of Illinois, Massachusetts Institute of Technology, Arizona State University, Dartmouth College, Oregon State University, Rutgers, Tenn State University, University of Houston, Washington State University, Argonne National Laboratory, Pacific Northwest National Laboratory; Michael Bailey (Key Personnel), University of Illinois
- “PREDICT Illinois” - Packet Clearing House, 9/11/2015 to 8/30/2016, \$141,689, Michael Bailey (PI), University of Illinois (\$141,689)
- “Enhancing Undergraduate Security Education” - Intel Corporation, Gift, 05/01/15, \$25,000, Michael Bailey (PI), University of Illinois (\$25,000)

- “TWC: TTP Option: Large: Collaborative: Internet-Wide Vulnerability Measurement, Assessment, and Notification” - National Science Foundation, CNS 1518741, 09/01/15 to 08/31/20, \$2,588,247, J. Alex Halderman (PI), University of Michigan; Vern Paxson, International Computer Science Institute; Michael Bailey (co-PI), University of Illinois (\$600,000)
- “TWC SBE: TTP Option: Medium: Collaborative: EPICA: Empowering People to Overcome Information Controls and Attacks” - National Science Foundation, CNS 1505790, 8/1/2014 to 7/31/2017, \$1,250,010, Wenke Lee (PI), Nicholas G Feamster, Hans K Klein, Hongyuan Zha, Georgia Institute of Technology; Marshini Chetty (co-PI), University of Maryland College Park; Michael Bailey (co-PI), University of Illinois (\$225,000)
- “A Next Generation Repository for Sharing Sensitive Network and Security Data.” - Department of the Air Force, FA8750-12-2-0314, 8/1/2012 to 7/31/2017, \$2,148,721, Michael Bailey (PI), University of Michigan (\$2,148,721)
- “EAGER: Understanding the Scope and Impact of Internet Information Manipulation” - National Science Foundation, CNS 1255153, 9/1/2012 to 8/31/2013, \$196,434, Michael Bailey (PI), J Alex Halderman (co-PI), University of Michigan (\$196,434)
- “TYPE-1: Efficient Tracking, Logging, and Blocking of Accesses to Digital Objects” - Department of Homeland Security, FA8750-12-2-0235, 9/27/2012 to 9/26/2014, \$1,035,590, Fabian Monroe (PI), University of North Carolina at Chapel Hill; Michael Bailey (co-PI), University of Michigan (\$239,665)
- “Cloud Computing Security” - Beyster Foundation, 4/1/2011 to 6/30/2050, \$100,000, Michael Bailey (PI), University of Michigan
- “NeTS: Large: Collaborative Research: Measuring and Modeling the Dynamics of IPv4 Address Exhaustion” - National Science Foundation, CNS 1111699, 8/1/2011 to 7/31/2015, \$1,999,901, Michael Bailey (PI), Zhuoqing M Mao (co-PI), University of Michigan (\$1,199,901.00); Vern Paxson (co-PI), Mark Allman (co-PI), Christian Kreibich (co-PI), International Computer Science Institute
- “Virtual Center for Network and Security Data” - Department of Homeland Security, NBCHC080037, 3/1/2008 to 2/28/2012, \$2,241,741.00, Farnam Jahanian (PI), Michael Bailey (co-PI), University of Michigan
- “A preliminary investigation of naming in the IPv6 Internet” - VeriSign, 11/1/2010 to 12/31/2050, \$50,000, Farnam Jahanian (PI), Michael Bailey (Key personnel), University of Michigan
- “Dependable Systems and Networks Conference: Student Travel Support” - National Science Foundation, CNS 1042515, 6/1/2010 to 5/31/2011, \$12,500, Michael Bailey (PI), University of Michigan
- “Mission Assurance in Tomorrow’s IP-based Networks: New Models and Paradigms for addressing Advanced Persistent Threats” - The Boeing Company, 12/1/2010 to 11/30/2011, \$236,072, Farnam Jahanian (PI), Michael Bailey (co-PI), University of Michigan
- “Botnet Attribution and Removal: From Axioms to Theories to Practice” - MURI - Multidisciplinary University Research Initiative (DoD), N00014-09-1-1042, 7/1/2009 to 5/31/2012, \$4,408,105 Wenke Lee (PI), David Dagon (co-PI), Jon Giffin (co-PI), Nick Feamster (co-PI), Georgia Institute of Technology; Kang Shin (co-PI), Farnam Jahanian (co-PI), Michael Bailey (co-PI), University of Michigan (\$1,267,294); John Mitchell, Stanford (co-PI); Chris Kruegel (co-PI), Giovanni Vigna (co-PI), University of California at Santa Barbara
- “TC; Small: In-Cloud Security Services for Mobile Devices” - National Science Foundation, CNS 0916390, 9/1/2009 to 8/31/2012, \$450,000, Michael Bailey (PI), University of Michigan
- “In-Cloud Security Services for Mobile Devices” - Google, Inc., 7/01/2009 to 12/31/2050, \$65,000, Farnam Jahanian (PI), Michael Bailey (Key personnel), University of Michigan

- “New Frameworks for Detecting and Minimizing Information Leakage in Anonymized Network Data” - Department of Homeland Security, FA8750-08-2-0147, 3/25/2008 to 4/30/2011, \$928,682, Fabian Monroe (PI), Michael Reiter (co-PI), University of North Carolina at Chapel Hill; Farnam Jahanian (PI), Michael Bailey (co-PI), University of Michigan (\$146,644)
- “Collaborative Research: CT-L: CLEANSE: Cross-Layer Large-Scale Efficient Analysis of Network Activities to Secure the Internet” - National Science Foundation, CNS 0831174, 10/1/2008 to 9/30/2012, \$1,829,297, Wenke Lee (PI), Nick Feamster (co-PI), Jon Giffin (co-PI), Mustaque Ahamad (co-PI), Xiaoming Huo (co-PI), Georgia Institute of Technology; Michael Bailey (co-PI), University of Michigan (\$281,000); Michael Reiter (co-PI), Fabian Monroe (co-PI) University of North Carolina at Chapel Hill; Phil Porras (co-PI), Vinod Yegneswaran (co-PI) SRI International; Paul Vixie (co-PI) Internet Software Consortium
- “CRI-IAD: Collaborative Research: Enabling Security and Network Management Research for Future Networks” - National Science Foundation, CNS 0751116, 3/1/2008 to 2/28/2011, \$356,775, Zhuoqing Mao (PI), Jignesh Patel (co-PI), Manish Karir (co-PI), Michael Bailey (co-PI), University of Michigan
- “The Internet Motion Sensor Project” - Cisco, Inc., 06/01/2008 to 12/31/2050, \$38,354.68, Farnam Jahanian (PI), Michael Bailey (Key personnel), University of Michigan
- “Detecting and Dismantling Botnet Command and Control Infrastructure using Behavioral Profilers and Bot Informants” - Department of Homeland Security, NBCHC060090, 10/10/2006 to 7/30/2011, \$2,041,599, Farnam Jahanian (PI), Michael Bailey (co-PI), University of Michigan
- “Topology-Aware Internet Threat Detection Using Pervasive Darknets.” - National Science Foundation, CNS 0627445, 09/15/2006 to 08/31/2010, \$412,580, Farnam Jahanian (PI), Jignesh Patel (co-PI), Michael Bailey (Key personnel), University of Michigan
- “Multi-Tiered Distributed Indication, Warning and Defense System” - Intelligence Community Advanced Research and Development Activity (ARDA), NBCHC030104, 10/1/2003 to 3/31/2005, \$790,825, Farnam Jahanian (PI), Peter Chen (co-PI), Michael Bailey (Key personnel), University of Michigan
- “The Internet Motion Sensor Project” - Intel, 12/03/2004 to 12/02/2015, \$267,000, Farnam Jahanian (PI), Michael Bailey (Key personnel), University of Michigan
- “Virtual Center for Network and Security Data” - Department of Homeland Security, NBCHC040146, 8/1/2004 to 7/31/2007, \$1,256,068, Farnam Jahanian (PI), Michael Bailey (Key personnel), University of Michigan

Conference Publications

1. Boladji Vinny Adjibi, Athanasios Avgetidis, Manos Antonakakis, Michael Bailey, Fabian Monroe. The Guardians of Name Street: Studying the Defensive Registration Practices of the Fortune 500. The Network and Distributed System Security Symposium 2025 (NDSS '25). San Diego, California, February 24-28, 2025.

- 2012 Workshop on Building Analysis Datasets and Gathering Experience Returns for Security (BADGERS '12)
- 5th USENIX Workshop on Large-Scale Exploits and Emergent Threats (LEET '12)
- 15th International Symposium on Recent Advances in Intrusion Detection (RAID '12)
- 3rd Workshop on Ethics in Computer Security Research (WECSR '12)
- 33rd IEEE Symposium on Security and Privacy (Oakland '12)
- 1st SysSec Workshop (SysSec '11)
- 2011 European Workshop on System Security (Eurosec '11)
- 4th USENIX Workshop on Large-Scale Exploits and Emergent Threats (LEET '11)
- 2nd Workshop on Ethics in Computer Security Research (WECSR '11)
- 14th International Symposium on Recent Advances in Intrusion Detection (RAID '11)
- 8th Conference on Detection of Intrusions and Malware & Vulnerability Assessment (DIMVA '11)
- 41st Annual IEEE/IFIP International Conference on Dependable Systems and Networks (DSN '11)
- 32nd IEEE Symposium on Security and Privacy (Oakland '11)
- 7th Conference on Detection of Intrusions and Malware & Vulnerability Assessment (DIMVA '10)
- 17th Annual Network and Distributed System Security Symposium (NDSS '10)
- 13th International Symposium on Recent Advances in Intrusion Detection (RAID '10)
- 40th Annual IEEE/IFIP International Conference on Dependable Systems and Networks (DSN '10)
- Workshop on Ethics in Computer Security Research (WECSR '10)
- 17th Annual Network and Distributed System Security Conference (NDSS '10)
- 12th International Symposium on Recent Advances in Intrusion Detection (RAID '09)
- Second USENIX Workshop on Large-Scale Exploits and Emergent Threats (LEET '09)
- 11th International Symposium on Recent Advances in Intrusion Detection (RAID '08)
- First USENIX Workshop on Large-Scale Exploits and Emergent Threats (LEET '08)
- Proceedings of the 5th ACM workshop on Rapid Malcode (WORM '07)
- First Workshop on Hot Topics in Understanding Botnets (HotBots '07)
- Proceedings of the 4th ACM workshop on Rapid Malcode (WORM '06)
- External reviewer for numerous journals, conferences, and workshops including:
 - 42nd Annual IEEE/IFIP International Conference on Dependable Systems and Networks (DSN '12)
 - ACM Transactions on Storage (TOS)
 - 16th ACM Conference on Computer and Communications Security (CCS '09)
 - IEEE Security and Privacy Magazine
 - Communications of the ACM (CACM)

- IEEE Transactions on Networking (ToN)
- ACM Transactions on Information and System Security (TISSEC)
- 30th IEEE Symposium on Security & Privacy (Oakland '09)
- 6th USENIX Symposium on Networked Systems Design and Implementation (NSDI '09)
- Workshop: Research on Enterprise Networking (WREN '09)
- 18th USENIX Security Symposium (Usenix Security '09)
- 15th Annual Network and Distributed System Security Symposium (NDSS '08)
- 15th Annual ACM Computer and Communications Security Conference (CCS '08)
- 38th Annual IEEE/IFIP International Conference on Dependable Systems and Networks (DSN '08)
- 37th Annual IEEE/IFIP International Conference on Dependable Systems and Networks (DSN '07)
- 10th International Symposium on Recent Advances in Intrusion Detection (RAID '07)
- 9th International Symposium on Recent Advances in Intrusion Detection (RAID '06)
- Second Workshop on Hot Topics in System Dependability (HotDep '06)
- 2006 Internet Measurement Conference (IMC '06)
- NSF review panelist for programs in my domain area (Panel names and dates omitted per NSF).
- Served on the US Department of Homeland Security “Menlo Report” working group
- Other professional service:
 - 2025 IEEE Security & Privacy EIC Search Committee
 - 2025 ACM HLF Young Researcher Selection Committee
 - ACM Task force on Human Subject Ethics in Research

Department, College, and University Service Assignments

Department

- University of Illinois, Electrical and Computer Engineering, Graduate Admissions, 2020-2021
- University of Illinois, Electrical and Computer Engineering, Advisory Committee, 2018-2019
- University of Illinois, Electrical and Computer Engineering, Development and Alumni Relations Committee, 2018-2019
- University of Illinois, Electrical and Computer Engineering, Public Relations Committee, 2018-2019
- University of Illinois, Computer Science, FAA (Fellowships, Assistantships and Admissions) committee, 2017-2018
- University of Illinois, Electrical and Computer Engineering, Public Relations Committee, 2017-2018
- University of Illinois, Electrical and Computer Engineering, Development and Alumni Relations Committee, 2017-2018
- University of Illinois, Coordinated Science Laboratory, CSL PhD Thesis Award Committee, 2018
- University of Illinois, Coordinated Science Laboratory, CSL Policy & Planning Committee, 2018-2020 (elected)

- University of Illinois, Electrical and Computer Engineering, Curriculum Committee, 2016-2017
- University of Illinois, Electrical and Computer Engineering, Public Relations Committee, 2016-2017
- University of Illinois, Electrical and Computer Engineering, Development and Alumni Relations Committee, 2016-2017
- University of Illinois, Coordinated Science Laboratory, CSL PhD Thesis Award Committee, 2017
- University of Illinois, Coordinated Science Laboratory, CSL Academic Professional Awards Committee, 2016
- University of Illinois, Electrical and Computer Engineering, Public Relations Committee, 2015-2016
- University of Illinois, Electrical and Computer Engineering, Development and Alumni Relations Committee, 2015-2016
- University of Illinois, Electrical and Computer Engineering, Faculty Search Committee, 2015-2016
- University of Illinois, Electrical and Computer Engineering, Distinguished Research Fellowship Committee, 2014-2015
- University of Illinois, Electrical and Computer Engineering, Graduate Recruitment Committee, 2014-2015
- University of Illinois, Electrical and Computer Engineering, Curriculum Committee, 2014-2015
- University of Michigan, Computer Science and Engineering, Graduate Admissions, 2012-2013
- University of Michigan, Computer Science and Engineering, DCO Faculty Liaison, 2007-2008

College

- University of Illinois, College of Engineering, Engineering Faculty Leadership Forum Class of 2020/2021
- University of Illinois, College of Engineering, Engineering-Computer Science Liaison, 2020-2021
- University of Illinois, College of Engineering, Engineering-Computer Science Liaison, 2019-2020
- University of Illinois, College of Engineering, Engineering-Computer Science Liaison, 2018-2019
- University of Illinois, College of Engineering, Engineering-Computer Science Liaison, 2017-2018
- University of Illinois, College of Engineering, Engineering-Computer Science Liaison, 2016-2017
- University of Illinois, College of Engineering, Engineering-Computer Science Liaison, 2015-2016

University

- University of Illinois, Security Investment Advisory Board (SIAB), 2020-2021
- University of Illinois, IT Faculty Advisory Committee, 2015-2017
- University of Michigan, Information and Infrastructure Assurance Council, 2013-2014
- University of Michigan, University IT Council, 2013-2014

Non-Professorial Search Committees

- Georgia Institute of Technology, Executive Vice President for Research, 2024-2025
- University of Illinois, Electrical and Computer Engineering, Department Head, 2019
- University of Illinois, Deputy Chief Information Office, 2019
- University of Illinois, Director Engineering City Scholars, 2018
- University of Illinois, Electrical and Computer Engineering, Academic Advisor, 2018
- University of Illinois, National Center for Supercomputing Applications, Assistant Director, 2018
- University of Illinois, National Center for Supercomputing Applications, Technical Program Manager, 2018
- University of Illinois, Electrical and Computer Engineering, Assistant Director of Corporate Relations, 2017
- University of Illinois, Coordinated Science Laboratory, Associate Director of Business Operations, 2016
- University of Illinois, Computer Science, Visiting Research Scientist, 2015

Honors and Awards

- Elevated to ACM Fellow, 2025
- Best paper award, European Symposium on Research in Computer Security (ESORICS), 2022
- Best paper award, The Web Conference (formerly WWW), 2019
- Google Security and Privacy Research Award, 2016
- University of Illinois, List of Teachers Ranked as Excellent by Their Students (Fall 2016, Spring 2016, Spring 2018, Fall 2018, Spring 2019, Spring 2020)
- University of Illinois, Engineering Council Award for Excellence in Advising, 2016
- IETF/IRTF Applied Networking Research Prize, 2015
- Best paper award, Internet Measurement Conference, 2014
- Elevated to Senior Member of ACM, 2013
- University of Michigan Research Faculty Recognition Award, 2012
- University of Michigan, College of Engineering Kenneth M. Reese Outstanding Research Scientist Award, 2011
- Elevated to Senior Member of IEEE, 2009

Chair Ph.D. Committee Service

- Deepak Kumar, Ph.D. in CS in 2020 from the University of Illinois, placed at University of California, San Diego, thesis entitled “A principled approach to measuring the IoT ecosystem”
- Zane Ma, Ph.D. in CS in 2021 from the University of Illinois, placed at Oregon State University, thesis entitled “Understanding the trust relationships of the web PKI”
- Joshua Reynolds, Ph.D. in CS in 2022 from the University of Illinois, placed at New Mexico State University, thesis entitled “URL Location Ambiguity”
- Paul Murley, Ph.D. in CS in 2023 from the University of Illinois, placed at Argonne National Laboratory, thesis entitled “Exploring The Trade-Offs In Web Page Behavioral Abstractions”

Co-chair Ph.D. Committee Service ¹

- Jake Czyz, Ph.D. in CS in 2016 from the University of Michigan, placed at Quad Metrics, thesis entitled “A Brave New World: Studies on the Deployment and Security of the Emerging IPv6 Internet”
- Jing Zhang, Ph.D. in CS in 2015 from the University of Michigan, placed at Karst Peak Capital, thesis entitled “A Macroscopic Study of Network Security Threats at the Organizational Level”
- Yunjing Xu, Ph.D. in CS in 2013 from the University of Michigan, placed at Square, Inc., thesis entitled “Characterizing and Mitigating Virtual Machine Interference in Public Clouds”

Non-chair Ph.D. Committee Service

- Omar Alrawi, Ph.D. in CS in 2023 from Georgia Institute of Technology, placed at GaTech (research scientist).
- Bo-Rong Chen, Ph.D. in CS in 2023 from the University of Illinois, placed at Google.
- Riccardo Paccagnella, Ph.D. in CS in 2022 from the University of Illinois, placed at CMU.
- Key-whan Chung, Ph.D. in ECE in 2021 from the University of Illinois, Lawrence Livermore National Laboratory.
- Jose Rodrigo Sanchez Vicarte, Ph.D. in CS in 2022 from the University of Illinois, placed at Intel
- Wajih Ul Hassan, Ph.D. in CS in 2021 from the University of Illinois, placed at University of Virginia
- Rakesh Kumar, Ph.D. in ECE in 2019 from the University of Illinois, placed at iManage
- Hao Wu, Ph.D. in ECE in 2017 from the University of Illinois, placed at Rubrik, Inc.
- Zhuotao Liu, Ph.D. in ECE in 2017 from the University of Illinois, placed at MiddlePolice, Inc.
- Zachary Estrada, Ph.D. in ECE in 2017 from the University of Illinois, placed at Rose-Hulman Institute of Technology
- Yacin Nadji, Ph.D. in CS in 2015 from Georgia Institute of Technology, placed at Georgia Institute of Technology (PostDoc)
- Xinyu Xing, Ph.D. in CS in 2015 from Georgia Institute of Technology, placed at Penn State University

¹At the University of Michigan, Research Associate Professors may only serve as sole chair by special arrangement.

- Andrew White, Ph.D. in CS in 2015 from the University of North Carolina at Chapel Hill, placed at Netflix
- Jason R Britt, Ph.D. in CS from the University of Alabama at Birmingham (Anticipated)
- Pierre-Antoine Vervier, Ph.D. in 2014 from EURECOM, placed at Symantec
- Kevin Snow, Ph.D. in CS in 2014 from the University of North Carolina at Chapel Hill, placed at UNC (Research Scientist)
- Davide Canali, Ph.D. in CS in 2014 from EURECOM, placed at Lastline, Inc.
- Matthew Knysz, Ph.D. in CS in 2012 from the University of Michigan, placed at LiveLead, Inc.
- Jon Oberheide, Ph.D. in CS in 2011 from the University of Michigan, placed at Duo Security
- Yuanyuan Zeng, Ph.D. in CS in 2011 from the University of Michigan, placed at Perimeter eSecurity
- Xu (Simon) Chen, Ph.D. in CS in 2010 from the University of Michigan, placed at AT&T
- Sushant Sinha, Ph.D. in CS in 2009 from the University of Michigan, placed at Yahoo, India

Postdoc Students Supervised

- Mohammad Amin Kharraz, Ph.D. in CS in 2017 from the Northeastern University, Postdoctoral Research Associate (100%), 2018-2020, placed at Florida International University

Masters Students Supervised

- Kaishen Wang, MS in CS in 2019 from the University of Illinois, placed at Citadel Securities, LLC, thesis entitled “Blacklist filtering for security research: bridging the gap between domain blacklists and malicious web content”
- Suyup Kim, MS in CS in 2019 from the University of Illinois, placed at UIUC Ph.D. program
- Yi Zhou, MS in CS in 2019 from the University of Illinois, placed at CMU Ph.D. program, thesis entitled “Erays: Reverse Engineering Ethereum’s Opaque Smart Contracts”
- Eric Clark, MS in ECE in 2018 from the University of Illinois, placed at Apple, Inc., thesis entitled “Trace-based hardware control flow signature checking”
- Siddharth Murali, MS in CS in 2018 from the University of Illinois, placed at PricewaterhouseCoopers, LLP, thesis entitled “Using ethereum transactions to deanonymize senders”
- Zhengping Wang, MS in ECE in 2018 from the University of Illinois, placed at Google, thesis entitled “Tracking certificate misissuance in the wild”
- Seoung Kim, MS in CS in 2017 from the University of Illinois, placed at UIUC Ph.D. program, thesis entitled “Measuring Ethereum’s peer-to-peer network”
- Mika Latimer, MS in ECE in 2017 from the University of Illinois, placed at Microsoft, thesis entitled “Trace-weighted binary comparison for software update management”
- Alex Mitsdarfer, MS in ECE in 2017 from the University of Illinois, placed at Sandia National Labs, thesis entitled “Characterizing university network usage with active directory event logs”
- Thasphon Chuenchujit, MS in CS in 2016 from the University of Illinois, placed at Indeed, thesis entitled “Crafting The Ultimate Phishing Email: A Survey Of Phishing Literature”

- Mathew Tischer, MS in ECE in 2015 from the University of Illinois, placed at Microsoft, thesis entitled “Testing Malicious USB Anecdote”
- Kyle Lady, MS in CS in 2014 from the University of Michigan, placed at Duo Security, studied Security
- Kee Shen Quah, MS in CS in 2014 from the University of Michigan, placed at EMC, studied Security
- Zachary Musgrave, MS in CS in 2013 from the University of Michigan, placed at Yelp, studied Cloud Computing
- Sam Miller, MS in CS in 2013 from the University of Michigan, placed at Microsoft, studied IPv6 Adoption
- Yiwen Li, MS in CS in 2013 from the University of Michigan, placed at NYU (Ph.D. student), studied Phishing
- Kaustubh Nyalkalkar, MS in CS in 2012 from the University of Michigan, placed at Pontiflex, studied Anomaly Detection
- Oleg Krogius, MS in CS in 2010 from the University of Michigan, placed at Microsoft, studied Mobile Security
- Eric Vander Weele, MS in CS in 2010 from the University of Michigan, placed at Bloomberg, studied Botnet Detection and Mitigation
- Stephen Hufnagel, MS in CS in 2007 from the University of Michigan, placed at Microsoft, studied Botnet Detection and Mitigation
- Kayle Hinkle, MS in CS in 2007 from the University of Michigan, placed at Microsoft, studied Botnet Detection and Mitigation
- Gabriele Giaquinto, MS in CS in 2007 from the University of Michigan, placed at Microsoft, studied Botnet Detection and Mitigation
- Andrew Myrick, MS in CS in 2007 from the University of Michigan, placed at Apple, studied Botnet Detection and Mitigation
- Jon Andersen, MS in CS in 2007 from the University of Michigan, placed at Citrix, studied Malware Analysis
- Rushi Desai, MS in CS in 2005 from the University of Michigan, placed at Microsoft, studied Botnet Detection and Mitigation
- Karl Rosaen, MS in CS in 2005 from the University of Michigan, placed at Google, studied Botnet Detection and Mitigation

Undergraduate Students Supervised

- James Austgen (Undergrad Hourly), BS in CS in 2021 from the University of Illinois, studied TLS
- David Hu (Undergrad Hourly), BS in CS in 2021 from the University of Illinois, studied TLS
- Neeraj Aggarwal (Undergrad Hourly), BS in CS in 2021 from the University of Illinois, studied IoT
- Jiahe Ding (Undergrad Hourly), BS in CS in 2020 from the University of Illinois, studied mobile security
- Meishan Wu (Undergrad Hourly), BS in CS in 2020 from the University of Illinois, studied usable security

- Rohan Subramaniam (Undergrad Hourly), BS in CS in 2019 from the University of Illinois, studied usable security
- William Gayde (Undergrad Hourly), BS in ECE in 2019 from the University of Illinois, studied network security
- Borui Niu (Undergrad Hourly), BS in CS in 2019 from the University of Illinois, studied IoT Security
- Shantanu Tulshibagwale (Undergrad Hourly), BS in CS in 2019 from the University of Illinois, studied IoT Security
- Anna Shabayev (Undergrad Hourly), BS in ECE in 2019 from the University of Illinois, studied Ethics
- Ian Klatzco (Undergrad Hourly), BS in ECE in 2018 from the University of Illinois, studied IoT
- Paul Emge (Undergrad Hourly), BS in ECE in 2018 from the University of Illinois, studied IoT
- Tyler Hansen (Undergrad Hourly), BS in ECE in 2017 from the University of Illinois, studied Fuzzing
- Bartosz Kosciarz (Undergrad Hourly), BS in ECE in 2017 from the University of Illinois, studied WWW
- Eric Hennenfent (Undergrad Hourly), BS in CS in 2018 from the University of Illinois, studied WWW
- Yi Zhou (Undergrad Hourly), BS in Math in 2017 from the University of Illinois, studied CENSYS
- Matthew Hyder (Undergrad Hourly), BS in CS in 2017 from the University of Illinois, studied TLS
- Joseph Dickinson (Undergrad Hourly), BS in ECE in 2018 from the University of Illinois, studied TLS
- Samuel Foster (Senior Thesis), BS in CS in 2015 from the University of Illinois, studied Social Engineering, placed at Veeva Systems
- Sunny Duan (Honors Project), BS in ECE in 2016, from the University of Illinois, studied Social Engineering
- Troy Chmielecki (Individual Study in ECE), BS in ECE in 2015 from the University of Illinois, studied Social Engineering, placed at Apple
- John Terwilleger (Individual Study in ECE), BS in ECE in 2015 from the University of Illinois, studied Malware, placed at Geneca
- Alec Mori (Undergrad Hourly), BS in ECE in 2016 from the University of Illinois, studied Social Engineering, placed at Yelp
- Andrey Zaytsev (Undergrad Hourly), BS in CS from the University of Illinois (Anticipated), studied Social Engineering
- James Danielson, BS in CS in 2016 from the University of Michigan (Anticipated), studied Malware
- Henry Fanson, BS in CS in 2016 from the University of Michigan (Anticipated), studied Data Center Computing
- Miguel Sanchez, BS in CS in 2014 from the University of Michigan, studied Malware
- Saam Aghevli, BS in CS in 2014 from the University of Michigan, placed at Google, studied Information Manipulation
- Ben Mehne, BS in CS in 2014 from the University of Michigan, placed at UC Berkeley (Ph.D. student), studied IPv6 Adoption

- Christopher Jeakle, BS in CS in 2014 from the University of Michigan, placed at Microsoft, studied Captchas
- Ari Chivukula, BS in CS in 2013 from the University of Michigan, placed at Facebook, studied DNS-based Reputation
- Alex Robinson, BS in CS in 2013 from the University of Michigan, placed at Google, studied DNS-based Reputation
- Cheng Chen, BS in CS in 2013 from the University of Michigan, placed at Yelp, studied IPv6 Adoption
- Qingkun Li, BS in CS in 2012 from the University of Michigan, placed at UIUC (Masters student), studied IPv6 Adoption
- Kelsey M. Harris, BS in CS in 2011 from the University of Michigan, placed at MIT Lincoln Labs, studied Malware Analysis
- Vaibhav Mallya, BS in CS in 2010 from the University of Michigan, placed at Amazon, studied Mobile Security
- Mark Griffen, BS in CS in 2009 from the University of Michigan, placed at USAF, studied Botnet Detection and Mitigation

Teaching Experience

- CS 3237 – Human Dimension of Cybersecurity: People, Organizations, and Societies, Spring 2025
- ECE 422 / CS 461, Introduction to Computer Security, Spring 2021, 131 Students (Q1 - 4.44, Q2 - 4.67)
- ECE 422 / CS 461, Introduction to Computer Security, Spring 2020, 143 Students (incl. 5 city scholars) (Q1 - 4.38, Q2 - 4.42)
- ECE 391, Computer Systems Engineering, Fall 2019, 218 Students (Q1 - 3.85, Q2 - 4.06)
- ECE 422 / CS 461, Introduction to Computer Security, Spring 2019, 109 Students (incl. 3 city scholars) (Q1 - 4.6, Q2 - 4.7)
- ECE 422 / CS 461, Introduction to Computer Security, Fall 2018, 31 Students (incl. 4 city scholars) (Q1 - 5.0, Q2 - 4.9)
- ECE 422 / CS 461, Introduction to Computer Security, Spring 2018, 118 Students (incl. 5 city scholars) (Q1 - 4.8, Q2 - 4.7)
- ECE 391, Computer Systems Engineering, Spring 2018, 199 Students (Q1 - 3.9, Q2 - 3.70)
- ECE 391, Computer Systems Engineering, Fall 2017, 223 Students (Q1 - 3.7, Q2 - 3.9)
- ECE 422 / CS 461, Introduction to Computer Security, Spring 2017, 161 Students (Q1 - 4.5, Q2 - 4.5)
- ECE 422 / CS 461, Introduction to Computer Security, Fall 2016, 165 Students (Q1 - 4.7, Q2 - 4.5)
- ECE 422 / CS 461, Introduction to Computer Security, Spring 2016, 148 Students (Q1 - 4.6, Q2 - 4.6)
- ECE 422 / CS 461, Introduction to Computer Security, Fall 2015, 154 Students (Q1 - 4.5, Q2 - 4.6)
- ECE 422 / CS 461, Introduction to Computer Security (ONL), Fall 2015, 11 Students (Q1 - 4.0, Q2 - 4.4)

- ECE 422 / CS 461, Introduction to Computer Security, Spring 2015, 134 Students (Q1 - 4.5, Q2 - 4.5)
- ECE 391, Computer Systems Engineering, Fall 2014, 138 Students (Q1 - 4.2, Q2 - 3.9) ²
- EECS 398, Introduction to Computer Security, Fall 2012, 112 Students (Q1 - 4.50, Q2 - 4.69) ³
- EECS 591, Distributed Systems, Winter 2010, 23 Students (Q1 - 4.05, Q2 - 4.25)
- EECS 591, Distributed Systems, Winter 2008, 19 Students (Q1 - 3.93, Q2 - 4.00)
- Various “guest lectures” including: EECS 591 - Distributed Systems (Winter 2003), EECS 489 - Computer Networks (Fall 2004, Winter 2005), EECS 496 - Professionalism and Ethics (Fall 2006), EECS 589 - Advanced Computer Networks (Fall 2006), EECS 388 - Introduction to Computer Security (Fall 2013)

Collaborators

David Adrian (University of Michigan), Mark Allman (International Computer Science Institute), Johanna Amann (International Computer Science Institute), Rony Amira (Google), Parinaz Ardabili (University of Michigan), Jethro Beekman (University of California, Berkeley), Adi Ben-Yoash (Google), Ari Berger (Google), Denis Bueno (Sandia National Laboratories), Elie Bursztein (Google), Marshini Chetty (University of Maryland, College Park), Ari Chivukula (Facebook), Kevin Compton (University of Michigan), Jakub Czyz (QuadMetrics), David Dittrich (University of Washington, Tacoma), Sunny Duan (University of Illinois at Urbana-Champaign), Zakir Durumeric (University of Michigan), Vijay Eranti (Google), Seyed Fayaz (Carnegie Mellon University), Nicholas Feamster (Princeton University), Ori Folger (Google), Sam Foster (Veeva Systems), Manaf Gharaibeh (Colorado State University), Alex Halderman (University of Michigan), Amir Hardon (Google), Scott Iekel-Johnson (Arbor Networks), Farnam Jahanian (Carnegie Mellon University), Michael Kallitsis (Merit Network), Mohammad Karami (George Mason University), Manish Karir (QuadMetrics), James Kasten (Google), Erin Kenneally (Department of Homeland Security), Hans Klein (Georgia Institute of Technology), Christian Kreibich (International Computer Science Institute), Srinivas Krishnan (Google), Kyle Lady (Duo), Wenke Lee (Georgia Institute of Technology), Frank Li (University of California, Berkeley), Nicolas Lidzborski (Google), Yang Liu (Harvard University), Mingyan Liu (University of Michigan), Matthew Luckie (University of Waikato), Zhuoqing Mao (University of Michigan), Damon McCoy (George Mason University), Sam Miller (Usermind), Ariana Mirian (University of California, San Diego), Fabian Monroe (University of North Carolina at Chapel Hill), Alec Mori (Yelp), Zachary Musgrave (Yelp), Brian Noble (University of Michigan), Eric Osterweil (Verisign), Christos Papadopoulos (Colorado State University), Vern Paxson (International Computer Science Institute, University of California, Berkeley), Mathias Payer (Purdue University), Phillip Porras (SRI International), Karem Sakallah (University of Michigan), Armin Sarabi (University of Michigan), Matthew Sargent (National Aeronautics and Space Administration), Stefan Savage (University of California, San Diego), Vyas Sekar (Carnegie Mellon University), Kurt Thomas (Google), Matthew Tischer (Microsoft), Yoshiaki Tobioka (NTT Communications), Nicolas Weaver (International Computer Science Institute), Andrew White (Netflix), Yunjing Xu (Smyte), Hongyuan Zha (Georgia Institute of Technology), Jing Zhang (Karst Peak Capital)

Graduate Advisor

Farnam Jahanian (Carnegie Mellon University)

Thesis Advisor (4)

Jake Czyz (QuadMetrics), Yunjing Xu (Smyte), Jing Zhang (Karst Peak Capital), Deepak Kumar (Stanford)

²Q1 - Rate the Instructor's Overall Teaching Effectiveness, Q2 - Rate the Overall Quality of this Course

³Q1 - Overall, this was an excellent course, Q2 - Overall, the instructor was an excellent teacher.
