CSE MS and PhD Programs

(+CS PhD & ML PhD, a little)

Ümit V. Çatalyürek
Professor and Associate Chair
CSE Programs Director

Nirvana Edwards
CSE Academic Coordinator

Follow along at bit.ly/GTCSE2020

The most important things you need to do this semester:

MS — Submit your **Program of Study**

PhD — Solidify your **Research advisor relationship**

+ Attend the **CSE Welcome Reception!**

Mark your calendar Wednesday Aug 19, 11am-noon

Stay tuned for more information.

If you do not start receiving email from cse-ms@lists.gatech.edu or cse-phd@lists.gatech.edu by the end of first week, let us know, by emailing at cse-advisor@cse.gatech.edu

Follow along at bit.ly/GTCSE2020

This is a special semester, we all will be WFH most of the time

What is CSE and **why** should you care?

Computational Science and Engineering:

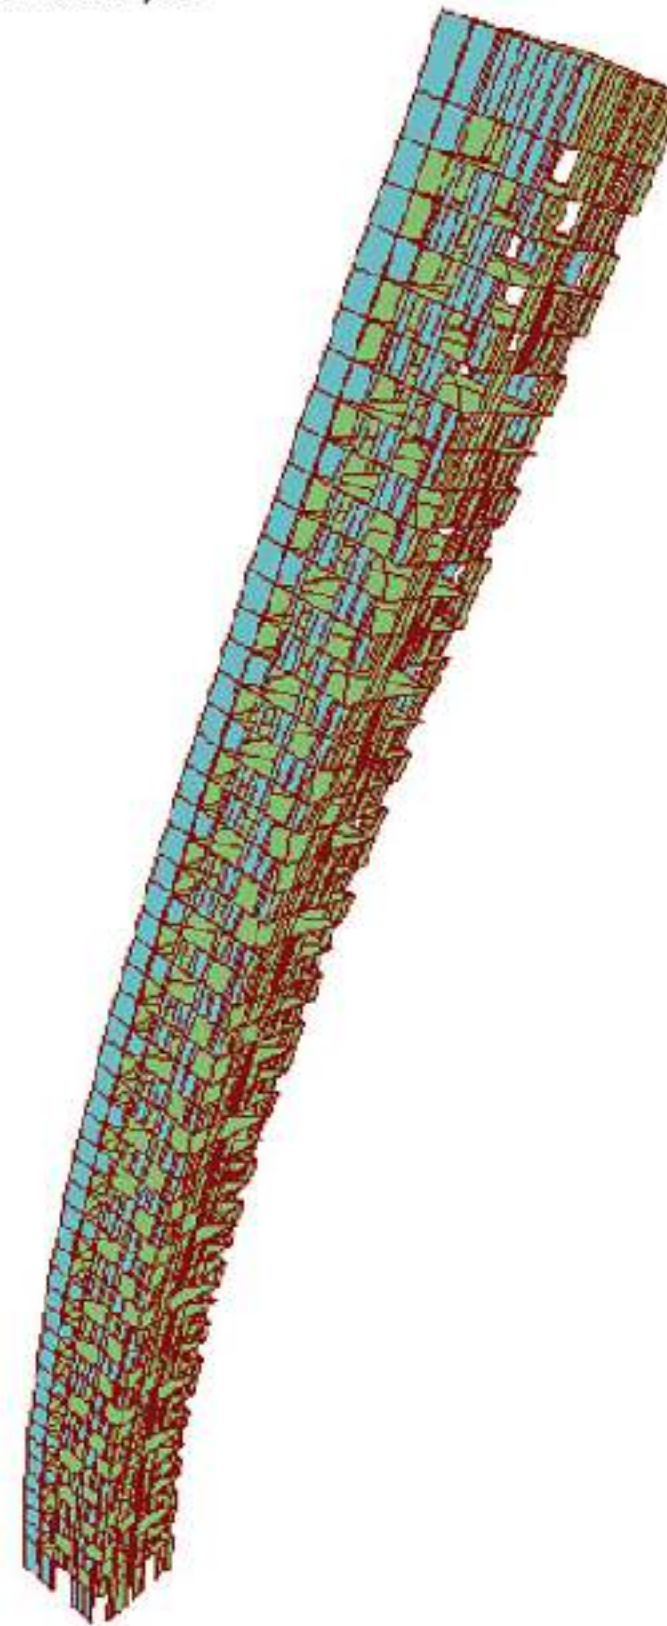

The study of computer-based models of *natural* and *engineered systems*.

Exaggerated visualizations from structural analysis

Mode 1
Y-direction

Mode 2
X-direction

Mode 3
Torsion

Stress plot of wind load in Y
direction

Computational Science and Engineering:

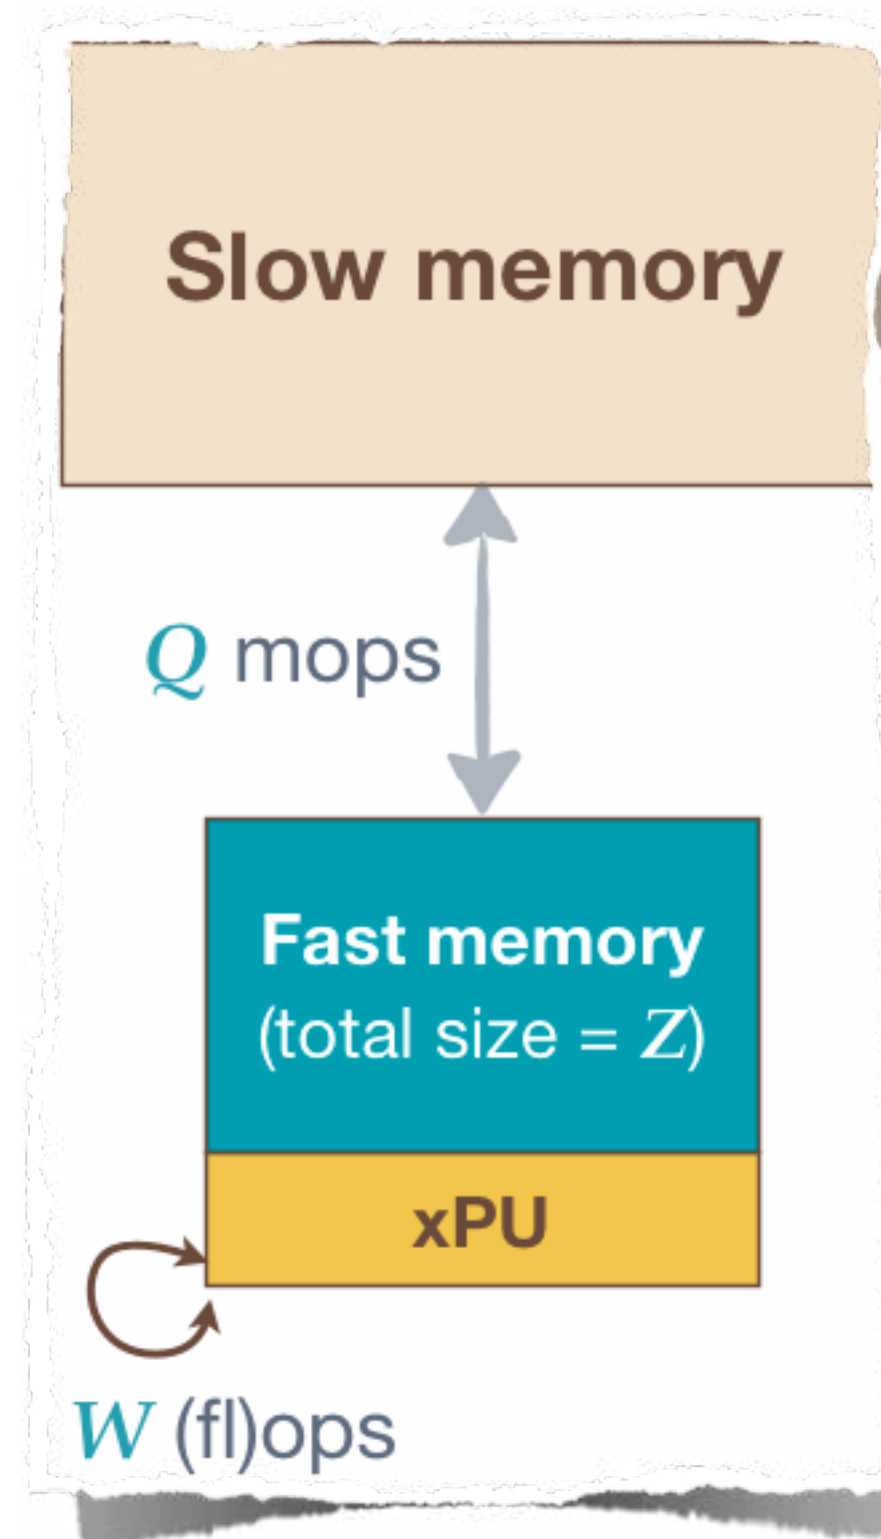

The study of **computer-based models** of *natural and engineered systems*.

“Coherent”

Tentative Thesis Title Matrix Factorization for Clustering:
Unsupervised, Semi-supervised, and Kernel-based

For more ideas, see the handbook.

PhD – Qualifying exam (“quals”)

Offered twice a year

- Fall: the Friday before the start of classes,
- Spring: the second Friday of the semester

Take at the start of 2nd year.

Part 1: Written exam to show “core competency”

Declare intent and committee at ~ end of first year.

Choose 2 of 5 “core” areas — course + reading list.

Take a day-long written exam (with free lunch).

Note: Written exam is the same regardless of home unit.

Part 2: “Artifact” defense — details vary by home unit

Example: CSE rules

Schedule oral exam to take place ~ during 5th—9th weeks of same semester.

Submit a 30-page written summary of your artifact.

Take oral exam — written exam follow-up + presentation of your artifact.

Note: Can take at most twice; may exit to MS.

PhD – Qualifying exam (“quals”)

Submit a 30-page written summary of your artifact.

Take oral exam — written exam follow-up + presentation of your artifact.

Note: Can take at most twice; may exit to MS.

PhD

Courses are important, but the **real reason** you are here is to do a deep **research** project that creates new knowledge in CSE.

PhD – Thesis Proposal Defense

Defend preliminary research & propose new work in ~ 2nd or 3rd year.

Write and submit a proposal, then defend it in front of a faculty committee.

Note: The secret to passing is to bring good snacks!

PhD – Final Defense

It's the last milestone to your PhD! Usually ~ 1-2 years after proposal.

Write and submit a dissertation, then defend it in front of a faculty committee. (Typically same committee as proposal.)

Note: The secret to passing is (still) to bring good snacks!

Computer Science (CS) PhD

<http://www.cc.gatech.edu/phd-computer-science>

Courses

Take 5 courses from 15 areas of **CS**, one must be from the Theory area. Students must earn an A or B in all of these courses, and more As than Bs total.

Programming Proficiency course.

Also, fulfill GT's minor requirement (9 hours) and take CS 7001 (Intro to PhD, 5 hours).

Research

Quals, thesis proposal, and thesis defense are similar. One small difference is the timeline for quals, which is “looser” than the CSE timeline.

“areas of CS” == usual bread-and-butter CS, e.g., databases, software engineering, architecture, graphics, security, programming languages, networking, HCI, CSE,...

Machine Learning (ML) PhD

<http://ml.gatech.edu/phd>

ML PhD orientation Friday August 14 at 1p via BlueJeans... interested parties can contact Kyla Hanson

Courses

Core - 4 courses: Mathematical Foundations of ML; Probabilistic and Statistical Methods in Machine Learning (pick 1/4); ML Theory and Methods (pick 1/5)
Optimization (pick 1/4)

Electives - 5 courses: choose 2 out of 5 areas: Statistics and Applied Probability; Advanced Theory; Applications; Computing and Optimization; Platforms.
(up to 6 hours special topics can be used to satisfy this requirement).

Also, fulfill **GT's minor requirement** (9 hours) and take **RCR course** (PHIL 6000, CSE 6001, CS 7001, etc.).

Research

Quals, thesis proposal, and thesis defense are “similar”.

PH.D. GRIND

ON THE MOV

The Ph.D. Grind

A Ph.D. Student Memoir

Summary

The Ph.D. Grind, a [122-page e-book](#), is the first known detailed account of an entire Ph.D. experience.

So far, over 100,000 people—professors, research scientists, current and prospective Ph.D. students, and professionals in a variety of fields—have read it and collectively sent me hundreds of heartfelt [email responses](#).

If you don't mind spoilers, read the [10–20 minute summary of the book](#).

PhD (& MS thesis) – Now what?

Goal 1: Solidify an advising relationship

Approach faculty about research! Talk to more than one. Use class projects & “special problems” to explore areas & ideas.

Goal 2: Meet your peers

Look to your left and to your right (hmm, look at your screen :)— these people will become your lifelong friends and colleagues!

Goal 3: Learn your “research community”

Read lots of papers, go to conferences, learn “who’s who.”

Goal 4: Enhance your “soft” skills

The field will judge your research from what you write, what you say, and with whom you work — you can never get too much practice!

Testing and Face Covering

Follow along at bit.ly/GTCSE2020

If you are actively experiencing symptoms

- make an appointment at Stamps Health Services.
- you can make an [appointment online](#), in person or call 404-894-1420.
- Stamps is where you have rapid tests and the address is 740 Ferst Drive, next to the Campus Recreation Center (CRC).
- If they are experiencing symptoms, ideally they would walk to Stamps and avoid using the Trolley.
- If they ask a friend to drive them or use a ride share service, the student should sit as far away from the driver as possible (the passenger backseat), both driver and passenger should wear a mask and keep all windows down.

Follow along at bit.ly/GTCSE2020

If you not experiencing symptoms and want to be tested as a matter of caution

TESTING LOCATION INFORMATION

<https://www.sga.gatech.edu/covid19/resources/locations/>

Available to students are two on-campus Covid-19 testing locations:

- Bobby Dodd Stadium (Gate 5)
- Curran Parking Deck (Level 2)

Dates/Hours of operation:

- Bobby Dodd:
 - August 7th – August 21st: 8:00AM – 5:00PM
 - August 24th and later: 8:00AM – 5:00PM Monday through Friday
- Curran:
 - August 8th – August 21st: 8:00AM – 5:00PM
 - August 24th and later: 8:00AM – 5:00PM Monday through Friday

Those who get tested can expect to receive results from Stamps within 24-48 hours.

Before getting tested, register at mytest.gatech.edu for a quicker entry.

Follow along at bit.ly/GTCSE2020

Face Covering Information

<https://www.sga.gatech.edu/covid19/resources/locations/>

The Reusable PPE locations will be available from August 8th – August 21st.

The Reusable face covering locations will be available:

- August 10th – 14th: 10:00AM – 2:00PM
- August 17th – 21st: 8:00AM – 5:00PM

The Single Use/Disposable face covering locations will be available all semester long. The hours of operation will be the normal hours of the host building.

For CODA residents, closest site to CODA is parking lot for Parking across the street from Rays Pizza.

Hours of Availability:

- August 10-14: 10:00AM - 2:00PM EST
- August 17-21: 8:00AM - 5:00PM EST

Follow along at bit.ly/GTCSE2020

Now Time to Register

Follow along at bit.ly/GTCSE2020

CSE offerings this term:

CSE 6001: **Intro to CSE PhD** — *PhD only; meets ethics requirement*

CSE 6140: **CSE Algorithms**

CSE 6643 / MATH 6643: **Numerical linear algebra**

CSE 6740 / ISYE 6740 : **Computational data analysis**

CSE 6010: **Computational Problem Solving**

CSE 6230: **HPC tools & applications**

CSE 6242: **Data & visual analytics**

CSE 6644: **Iterative methods**

CSE 8803-DLT **Deep Learning for Text Data Analysis**

CSE 8803-EPI **Computational Epidemiology**

CSE 8001: **CSE Seminar** — *Department seminar — occasional, watch for announcements*

Ignore CSE 6040 and CSE 6748 (for MSA), CSE 6220-001 and CSE 6250-001 (for OMSCS).

You can only register the courses on “Campus” you were admitted.

Follow along at bit.ly/GTCSE2020

Fall 20 New Student Permits

- Online check-in for permits:
https://gatech.co1.qualtrics.com/jfe/form/SV_dp8Pxs97aH0AkBL
- Survey is **open ONLY until 6PM ET** today (Wednesday, 8/12/18).
- Thursday morning, the caps will be raised, you will have time until Friday noon.
- PhD students may request TWO courses. MS students may request FOUR courses.
- If you miss the submission deadline, you will have to wait until Friday when the permit restrictions are removed (and any CoC student can register).
- Major restrictions come off on Monday.
- Students are responsible for ensuring that there are no time conflicts or major restrictions. For more information about major restrictions, please visit <https://www.cc.gatech.edu/academics/college-advising/regdates>

Follow along at bit.ly/GTCSE2020
